PHISCO DISTRIBUTING INC.

## **Phiscos Commitment**

We are committed to providing a “*Quick Ship*” program designed to fulfill orders at an increased pace satisfying the consumers need for instant gratification for higher end goods. Each collection comes in the specified wicker and fabric color listed on each collection page only.

Ships directly from our Lexington, NC warehouse

## **All-Weather Wicker**

Our all-weather wicker furnishings are crafted from premium quality HDPE (high density polyethylene), hand woven over reinforced aluminum frames. Lab tested for fade, sag, and mildew resistance. All-weather wicker is virtually maintenance free.

## **Teak**

Teak is a tropical hardwood particularly valued for its beauty, durability, and water resistance. Our select teak is grown and harvested in Indonesia, where trees grow up to 130 ft. high. All of our teak furnishings are crafted from select Indonesian solids which are harvested, air – and kiln-dried, cut into shapes by machine, then solidly joined into the final piece. The last step involves sanding and finishing, which results in a meticulously finished product. Its high oil content, exceptional tensile strength and termite-, pest – and rot -resistance make it ideal for garden and patio furniture.

## **Cushions**

Our deep seating cushions offer ultimate comfort, resilience and wearability. A plush solid core is wrapped in polyester batting, then encased in a water-resistant polypropylene barrier making our cushions exceptional for outdoor use. All fabrics are made from Sunbrella Outdoor material.

## **Care and Maintenance**

---

### **Teak Frame**

Teak is relatively impervious to the outdoor elements and needs very little maintenance. Clean your teak furniture regularly, using a mild dish soap, water, and a soft scrub brush.

Do not use a power washer, which can harm the finish. Always remove spills as soon as possible. If you wish to keep its honey brown color, you may apply teak sealers that preserve its natural oils, rather than applying additional teak oil. Keep teak furniture out of direct sunlight and extreme heat, which can cause cracking. We recommend storing indoors during winter months.

### **Resin Weave**

Woven furniture is manufactured using premium HDPE (high density polyethylene) resin. Lab tested for fade, sag, and mildew resistance, our resin weave is virtually maintenance free. If needed, simply rinse with water and dry with a soft cloth.

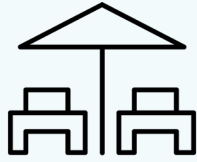

### **Cushions**

Cushions offer state-of-the-art comfort, resilience and wearability. A solid foam core is wrapped in polyester batting and encased in a water-resistant polypropylene barrier, making them unsurpassed for outdoor use. Cushion fabrics are 100% solution-dyed acrylic. To clean cushions, brush off any loose dirt and spot clean using mild soap and water. Rinse thoroughly and allow to air dry. Do not use harsh chemicals to clean. To maximize cushion life, we recommend rotating and flipping cushions regularly and covering when not in use.

### **How To Handle A Warranty**

All warranties apply to original owner only and require dated receipt. In addition, photos will be required when the warranty is submitted. Warranties will be at the discretion of the manufacture and will be advised by Phisco if a replacement is needed, or if a simple repair can be made. Please contact customer service at 717-335-1670 or email to [phiscoorders@gmail.com](mailto:phiscoorders@gmail.com) to file a claim. Warranties are defined as manufacture defects and exclude acts of nature such as wind damage, tree / limb damage, animal destruction and abuse of any kind.
